We need your help! Parenting Tip of the Month

Summer should be a time of relaxation, slowed schedules and time spent together as a family. All three of these are essential elements for good mental health for all family members, including children. So, together spend time outdoors, play games, cook or bake and pray because these are the moments that will strengthen your family bond. Take a holiday from social media and devices while doing so, which can help to prevent the negative mental health issues in children they are known to produce. Renew your commitment to in person, device free time together this summer and watch your children thrive.

Marriage Tip of the Month

When we say "I do" during our marriage vows we are really saying "I will". I will love this person even in moments when they may feel unlovable. I will not look for a 50/50 split in what we do, but will be a partner who will give more, and sometimes have to take more, depending on the circumstances of our lives. I will look to find a solution instead of winning. I will spend time with you so we stay connected and in love. I will remember the commitment I made to be faithful and seek to make you a better person and accept your attempts to do the same for me. Marriage, taken as an action word, continues to grow and thrive despite the challenges life may throw at you and it produces a love strengthens as the years pass.
